WORK EXPERIENCE

Tech2Go Network Innovations **January - April 2025**
NOC Intern *Unit G-16 Sultan St., Highway Hills, Mandaluyong City*

- Assisted in troubleshooting and maintaining various devices, including access points, printers, PCs, routers, and switches.
- Provided on-site technical support by installing and configuring internet modems for company clients.
- Built an SLA automation tool that reduced manual computation time for NOC engineers.

Full Stack Web Developer/Freelance **December 2025 – Present**

- Designed, developed, and deployed full-stack web applications for clients, handling both front-end and back-end architecture.
- Collaborated directly with clients to gather requirements, deliver iterative updates, and ensure the final product met business needs.

PROJECTS

Web-Based Loan Dashboard System **2023 - 2024**
Project Manager/Head Programmer

- Developed 95% of the front-end and back-end functions of the application.
- Effectively executed the project enhancing loan inquiry experience.

Inventory-Sales Management System (IRMS) **January 2026 – March 2026**
Full Stack Developer/Freelance

- Developed a full-stack web-based inventory and sales management system with real-time stock monitoring, role-based access control, dynamic reporting dashboards, and low-stock alert features to support its business operations.

EDUCATION

Bachelor of Science in Information Technology **2021 - 2025**
University of the East - Caloocan *Caloocan City, Metro Manila*

Certifications: Fortinet Certified Fundamentals Cybersecurity; Huawei Certified ICT Associate (HCIA) Cloud Computing v5.0
Organizations: League of Information Technology Students
